

eTrust™ Anti-Spam

Features, Functions, Benefits

Feature	Function	Benefit
Blocks 100% of Spam	Only allows mail from your white list of approved senders to reach your Inbox	Today, more than 40% of e-mail is unsolicited, unwanted spam. Blocking 100% of spam eliminates time wasted deleting e-mails, creates a user-friendly e-mail environment, and provides a safe atmosphere for minors.
Works Simply and Easily	<ul style="list-style-type: none"> Integrates seamlessly with Microsoft Outlook/Exchange upon installation Automatically installs new features as they become available with your approval 	eTrust Anti-Spam is the only filter that is easier to use than the DELETE key. No complicated configuration or training necessary and no spam in your Inbox ever again!
Suppresses New Mail Notification for Spam	<ul style="list-style-type: none"> Individuals are only notified when new mail is received from approved senders Mail notification is suppressed when inbound messages are diverted to the quarantine folder 	By eliminating interruptions from spam, eTrust Anti-Spam improves your productivity.
Automatically Manages White List of Approved Senders	<ul style="list-style-type: none"> Automatically compiles and manages your white list of approved senders Adds approved senders to your list automatically as you send and respond to messages Correctly handles messages from mailing lists when you block or approve selected messages 	Allows you to use e-mail effortlessly without wasting time creating personal white lists and rules.
Optional Challenge/Response	<ul style="list-style-type: none"> Optionally sends confirmation messages to senders of mail in your quarantine folder Messages are freed from the eTrust Anti-Spam quarantine with a valid confirmation response A customizable confirmation message enables you to personalize the sender confirmation request for the best possible results 	Completely eliminates the need to review quarantined messages and allows human senders to reach you via e-mail, even if they were previously unknown to you.
International Language Support	<ul style="list-style-type: none"> eTrust Anti-Spam properly filters spam sent in any language eTrust Anti-Spam automatically works in English, German, French, Italian, Spanish, Brazilian Portuguese, Chinese, Japanese and Korean 	Even if your native language isn't English or if you correspond with people in other languages, eTrust Anti-Spam works for you, too.
Installs Easily for Individual End-Users	<ul style="list-style-type: none"> Easily installed-even for the novice Works behind corporate firewalls 	Anyone can install this product for complete spam protection.
Protects Multiple E-mail Accounts	Monitors inbound messages for Microsoft Exchange and any POP3	Offers complete spam protection for multiple e-mail accounts.

Computer Associates®

eTrust™ Anti-Spam Features, Functions, Benefits

	mail accounts that are configured in Outlook, including complementary products such as YahooPOPs! And AOL2POP	
Supports Bonded Sender	Allows mail from legitimate senders of commercial e-mail (e.g. order confirmations from Amazon) to be delivered to your Inbox.	Allowing important e-mails that could otherwise be deemed spam eliminates time spent searching your quarantine folder.
Spoof-Proof Fraud Protection	Automatically verifies the authenticity of messages from people and companies using industry-standard digital signatures.	Provides you the comfort of knowing you are protected from potentially dangerous e-mail threats.
